WORKED EXAMPLE

FreeToolr

A semester GPA

Three courses: an A (4.0) in a 3-credit course, a B (3.0) in a 4-credit course, and an A (4.0) in a 2-credit course.

1. Open the GPA Calculator
2. Add each course with its grade
3. Enter the credit units
4. Read your GPA

Result: **(12 + 12 + 8) / 9 credits = 3.56**

Three tips before you start

Check your school's scale

Grade points differ between schools; use the scale your school publishes.

Keep your own record

Save each semester's result so your cumulative figure is easy to update.

Cite as you go

Add each source when you use it, not the night before the deadline.
