FreeToolr

12 Free Developer Tools That Run in Your Browser

Format, validate, decode and compare code and data.
Nothing to install.

2026 edition | **freetoolr.com**

FreeToolr

Why these tools are worth a look

100+

developer tools planned on FreeToolr

Local

your code and data stay in your browser

0

installs, sign-ups or API keys

FreeToolr

Read and fix JSON fast

01 JSON Formatter

Indent and colour a wall of JSON so it can be read.

Use it when: An API returns one long line and you need the field names.

freetoolr.com/developer/json-formatter/

02 JSON Validator

Find the exact line and character of a JSON error.

Use it when: A config file will not load and you cannot see why.

freetoolr.com/developer/json-validator/

FreeToolr

Debug sign-in and patterns

03 JWT Decoder

Read the header and claims inside a JSON Web Token.

Use it when: Checking the expiry time of a token during a login bug.

freetoolr.com/developer/jwt-decoder/

04 Regex Tester

Test a regular expression and see every match.

Use it when: Writing a pattern to pull order numbers out of text.

freetoolr.com/developer/regex-tester/

FreeToolr

Compare and convert

05 Diff Checker

See exactly what changed between two versions.

Use it when: Comparing two config files from different servers.

freetoolr.com/developer/diff-checker/

06 JSON to TypeScript Converter

Turn sample JSON into TypeScript types.

Use it when: Typing an API response without writing it by hand.

freetoolr.com/developer/json-to-typescript-converter/

WORKED EXAMPLE

FreeToolr

Find the broken JSON

A settings file fails to load. It has a trailing comma after the last item.

1. Open the JSON Validator
2. Paste the file
3. Read the error and its line number
4. Remove the comma and validate again

Result: **Valid JSON, ready to load**

Try JSON Validator

Six more tools to keep handy

07
SQL Formatter
Readable queries
Open tool

08
Base64 Encode Decode
Encode or decode text
Open tool

09
UUID Generator
Random unique IDs
Open tool

10
Cron Expression Generator
Build a cron schedule
Open tool

11
URL Encode Decode
Safe URL parameters
Open tool

12
YAML Validator
Catch YAML indentation errors
Open tool

- HTML Formatter
- HTML Minifier
- Image to Base64 Converter
- JavaScript Formatter
- JavaScript Minifier
- JSON Formatter
- JSON Minifier
- JSON to TypeScript Converter
- JSON Validator
- JSON Viewer
- JWT Decoder
- JWT Encoder
- Markdown Editor
- Regex Tester
- SQL Formatter
- Subnet Calculator
- URL Encode Decode
- UUID Generator
- XML Formatter
- YAML Validator

More are added every week. See the newest at **freetoolr.com/developer/**

FreeToolr

Three tips before you start

Never paste live secrets anywhere

Use test tokens and sample data when debugging, even in local tools.

Validate before you deploy

A 10-second check catches most config typos.

Keep a known-good copy

Compare against it with the Diff Checker when something breaks.

FreeToolr

Every tool. Every day. Free.

No account, no limits, no watermark. Most tools run in your browser.
