Percentages without the headache

01 Percentage Calculator

What percent one number is of another, or a percent of an amount.

Use it when: Working out a test score: 42 out of 60 is 70%.

freetoolr.com/calculators/percentage-calculator/

02 Percentage Change Calculator

The change between an old and a new value, as a percent.

Use it when: Rent went from 800 to 860: a 7.5% rise.

freetoolr.com/calculators/percentage-change-calculator/

FreeToolr

Shopping and sharing costs

03 Discount Calculator

The real price after a discount, and what you save.

Use it when: A 25% discount on a 120 jacket: you pay 90 and save 30.

freetoolr.com/calculators/discount-calculator/

04 Split Bill Calculator

Share a bill fairly, with or without a tip.

Use it when: A dinner for five with a 10% tip.

freetoolr.com/calculators/split-bill-calculator/

FreeToolr

Home and travel

05 Square Footage Calculator

The area of a room for flooring or paint.

Use it when: A 12 by 15 foot room is 180 square feet.

freetoolr.com/calculators/square-footage-calculator/

06 Fuel Cost Calculator

What a trip will cost in fuel.

Use it when: Planning a road trip budget before you go.

WORKED EXAMPLE

FreeToolr

What percent did I score?

You scored 42 marks out of 60 and want the percentage.

1. Open the Percentage Calculator
2. Choose 'X is what percent of Y'
3. Enter 42 and 60
4. Read the answer and the formula

Result: **42 / 60 × 100 = 70%**

FreeToolr

Three tips before you start

Read the formula

Each calculator shows how it works, so you can check the answer yourself.

Watch the units

Feet and metres, or monthly and yearly, give very different answers.

Round at the end

Keep full numbers until the last step for the most accurate result.
